COMMISSION

**West Virginia's
2006 Section 101 Expenditures**

2007 MAR 14 PM 3: 31

West Virginia received a total of \$2,977,057.00 under Title I Section 101 of the Help America Vote Act. To date, the amount of interest that has accrued for these funds totals \$65,308.41. That combined with the original amount received brings the total amount to be spent for Section 101 requirements to \$3,039,330.56. Section 101 allows for states to utilize this funding for a variety of uses including but not limited to improving the administration of elections, training election officials, replacement of voting systems, and the implementation of Title III of HAVA.

In order to provide for the implementation of West Virginia's comprehensive state HAVA plan, Section 101 funds were used for employee salaries, employee travel, training of election officials, and other minor miscellaneous expenses necessary for the implementation of HAVA and the purchasing of voting equipment. Of the \$310,745.02 that was actually spent from Section 101 funds during the reporting period, the following graph reflects how those funds were utilized.

The attached 269 form reflects an expenditure of \$309,869.00 during the current reporting cycle. In reporting the cash flow, we must take into consideration the expenditures and reimbursements from the accessibility program our office has set up under an arrangement with the Department of Health and Human Services. Under that program our office submits a check to the appropriate clerk and is reimbursed by the federal agency at the appropriate time. This cash flow resulted in a positive balance, although not program income which produced a net gain of \$876.02. This decreases our true expenditures from Section 101 funding to \$309,869.00 when in fact the actual expenditures were \$310,745.02. The balance sheet will reflect these amounts; however the pie graph will reflect

COMMISSION
2007 MAR 14 PM 3:31

the actual expenditure to show the HAVA expenditures as it relates to Section 101.

The expenditures listed were primarily done to educate the voters on the use of the new voting equipment. The year 2006 brought about a significant change for the voters in West Virginia. It was the year that voter would see the new voting equipment for the first time. In order to prepare the voters and election officials for this change, it was important to have a plan of action in place to educate all involved.

The Secretary of State's office contracted with an experienced public relations individual to assist in putting together a package to present to the public that not only would encourage them to participate in the 2006 election cycle, but also to familiarize them with the voting equipment itself. With a combination of newspaper advertisements, online advertisements, in person demonstration, and corporate participation, our office received amazing success in the area of familiarity with the equipment. Although the turnout was relatively low in the primary and there were programming issues, the election was successful and those that voted were very satisfied with the equipment. Our office received very little complaints on the equipment; this would transfer to the general election as well.

The education did not stop with advertisements and demonstrations, the public and election officials were encouraged to attend multiple training sessions held by the vendor and our office. Over the summer, our office provided one on one training sessions in each county for election officials and public demonstrations at most senior centers. This allowed continual education for all involved in the election process. Valuable lessons were learned during the primary and those were applied to the general. HAVA funds were not used to provide these training sessions, however they did cover a series of employee salaries and contractual project management through out this time frame. In fact, it is noted in the above graph and the below expenditure listing that the main expenditures of these fund are employee salaries, project management, and education. There are relatively few other expenses. Our office and the vendor through the contract covered a majority of the other items required to implement this major task. No voting equipment was purchased with these funds.

Below is a complete breakdown of the expenditures for the current reporting period. As West Virginia continues to implement the state plan, it is anticipated that large expenditures will be made to upgrade the voting equipment across the state and to comply with the other requirements of HAVA. Any further information in regards to these expenditures can be obtained by contacting Jason Williams, Manager of the Elections Division at (304)558-6000 or jwilliams@wvsos.com.
